

What about a memorial service?

Presently, provincial regulations prohibit transfer service operators from conducting or organizing a service. However, you can do this yourself with the assistance of your clergy and the service can be held in the church or at the graveside with assistance from cemetery staff. We can assist you by placing the death notice in the local newspaper and the cost can be included on our account. Even after using our service to complete the cremation, you can contact a funeral home to have the memorial service in their chapel. You can purchase a register book and thank-you cards from us or our affiliate funeral homes.

Where does the cremation take place?

Our office and crematorium are conveniently located under one roof at Glenhaven Memorial Gardens in Glenburnie.

Urn Vaults

Pebblecove, Composite, Grey	
Batesville 205557 / (31217)	\$295.00
Stoneharbor, Composite / Bronze, Grey	
Batesville 198067 / (31228)	\$895.00

What about pre-arranging?

Pre-arranging this service is quick and easy. We can meet with you or your representative (s) in our office or in your home to complete all of the documents. Payments can be made in full or over time with a payment plan. Monies are invested in a GIC or an Insurance Annuity for the eventual payment of the services requested.

Why use Kingston-Catarqui Cremation Services instead of a funeral home?

Basically it comes down to cost. Because we are a basic transfer service, we can charge much less than the funeral home for a basic service. The funeral home must charge more to cover the high cost of maintaining an expensive building, vehicle fleet and staff for the kinds of funerals that you are not requesting. We are competent, caring professionals who understand that your needs are plain and simple. We will deliver our service with no up-selling, no hidden charges, just one low price -

We Promise!
